WORK EXPERIENCE

Data Analyst

Ai Varient Bangalore

July/2023-

- Cleaning up big data sets of data by using ETL tools, looking for interesting things in data, and working with my team to use data for plotting the visuals and creating the dashboard.
- The tools which I used are the Excel, Power BI, Tableau, MySQL for making data visual (Charts and Graphs).

Project

Bank Analysis

- Bank faces challenges in customer targeting, credit risk, fraud, operations, and customer retention, necessitating advanced analytics and strategic solutions.
- Building visualization by using Power BI, Tableau and Excel and for analysis I use MySQL.
- Earn more amount of money as compare to the previous methodology.
